**TEXTE****Fantastic Ellen!**

England has found a heroine...

On 29th January, people all over Britain and all over the world watched Ellen MacArthur on their televisions. This 24-year-old girl has suddenly become a media superstar, and everyone is happy for her.

As everyone knows, she has sailed non-stop round the world, alone. That is a pretty incredible thing to do. Not many people have sailed single-handed round the world without stopping and most of those who have done so are men. You need to be strong - physically and mentally - to make such a difficult voyage.

**Ellen managed it at the age of 24! Now she is the youngest person to have navigated the globe single-handed; and she is also the fastest woman.**

**Furthermore, she almost won the very difficult "Vendée Globe" race finishing second after the Frenchman Michel Desjoyaux.**

She finished the 42,000 kilometre race in 94 days, 4 hours and 25 minutes. It was an incredible performance, and during the race she had several alarming moments.

Born a sailor?

No, not at all! Ellen does not come from a sailing family and she did not spend her childhood beside the sea. Her parents, schoolteachers, live in Derbyshire, a country in the middle of England, far from the sea.

But when she was a child, Ellen discovered sailing. Soon it became her passion. At the age of 17, people "discovered" her when she sailed single-handed round Great Britain. We have not heard the last of Ellen MacArthur, that is sure!
